PROFESSIONAL SUMMARY

I am a dedicated UI/UX Designer and Frontend Developer with experience designing clear, accessible and user-centric digital interfaces. I bring strong problem-solving, communication and teamwork skills, and I am motivated to advance in Computer Vision and AI to create scalable technological solutions that improve public service systems and quality of life in Nepal. I aim to pursue postgraduate studies to deepen my technical expertise and expand my ability to contribute meaningfully to Nepal's technology development.

EMPLOYMENT HISTORY

- ❖ **UI/UX Designer & Frontend Developer, Umesh Upadhyaya** Aug 2024 — Present
Bhaktapur
- Conducted user requirement analysis and translated findings into structured UI workflows and wireframes.
 - Designed and developed responsive interfaces using modern UI principles, improving usability and navigation flow.
 - Collaborated with cross-functional team members and participated in client discussions to align product goals and user experience outcomes.
 - Iteratively improved designs based on internal feedback and real-user interaction observations.

EDUCATION

- ❖ **Islington College** Jan 2023 — Dec 2025
BSc (Hons) Computing
Kathmandu

Graduated with First Honors Degree

SKILLS

- | | |
|--|--------------------------------|
| Figma, Wireframing, Prototyping | Git & GitHub |
| Wordpress, VS Code | Python, OpenCV, YOLO/CNN |
| HTML, Bootstrap, JavaScript, React | Concepts |

PROJECT

- ❖ **Moon Medicine** Aug 2024 — Oct 2025

Mobile app UI for a medicine supply platform built for B2B interactions between companies and vendors.

Key Contributions:

- Developed detailed UI flow using Figma and Balsamiq.
- Created step-by-step user paths for medicine search, ordering, and delivery tracking.

- Focused on accessibility and ease-of-use for non-technical users.

Technologies Used: Figma, Balsamiq

❖ **Kalash Services** Nov 2025 — Dec 2025

Call service website providing service listings with responsive UI for customer interaction.

Key Contributions:

- Designed clean layout structure for service accessibility.
- Implemented navigation and user journey for quick contact and service overview.
- Maintained code reusability and scalability.

Technologies Used: HTML, CSS, JavaScript, Bootstrap

❖ **AHA Barista Academy** Jan 2025 — Feb 2025

Responsive website for a barista training institute aimed at presenting services and attracting student enrollment.

Key Contributions:

- Built the entire frontend development from scratch.
- Collaborated with clients to translate business needs into design.
- Ensured mobile-responsiveness and accessibility across browsers.

Technologies Used: HTML, CSS, JavaScript, Bootstrap

❖ **Offer Nepal** May 2025 — Jun 2025

Mobile UI for promoting business offers, discounts, and advertisements directly to customers.

Key Contributions:

- Designed high-fidelity UI screens using Figma.
- Created promotional card layouts and navigation structures.
- Applied smooth transitions and modern color palettes to enhance user experience.

Technologies Used: Figma
